PROFESSIONAL SUMMARY

Data analyst with 4 years of experience turning raw business data into dashboards and predictive models. Strong in Python, SQL and Power BI, with hands-on experience in machine learning for demand forecasting and customer churn.

EXPERIENCE

Senior Data Analyst - Nile Retail Group (2022 - Present)

- Built 12 Power BI dashboards used by regional managers to track sales and inventory.
- Developed a churn prediction model in Python that improved retention campaign targeting by 18%.
- Automated weekly reporting with SQL and Python, saving about 15 hours per week.

Business Intelligence Analyst - Delta Logistics (2020 - 2022)

- Designed a data warehouse schema in SQL Server for shipment tracking.
- Created DAX measures and KPIs for on-time delivery and fleet utilization.

Data Analyst Intern - Cairo Telecom (2019 - 2020)

- Cleaned and analyzed customer usage datasets with Pandas.
- Presented monthly insights to the marketing team.
